

TISAX® Assessment

The main objective of LEONHARD KURZ Stiftung & Co. KG in the area of information security, is to maintain the confidentiality, integrity and availability of information through the operation of an information security management system (ISMS) using a risk management process and to provide interested parties, especially customers, with confidence that risks are being managed appropriately.

The security level of LEONHARD KURZ Stiftung & Co. KG is according to VDA/ISA TISAX® (Trusted Information Security Assessment Exchange) 'Info very high', 'Proto parts' and 'Avail very high' (Assessment Level 3).

TISAX® serves as a cross-company recognition of information security assessment results in the automotive industry. The regular assessment is carried out according to internationally recognized industry-wide standards based on ISO/IEC 27001 and industry-specific requirements of the automotive industry.

The results of the assessment of LEONHARD KURZ Stiftung & Co. KG, which was conducted by an independent audit provider, can be viewed using the following link:
